## Class of 2010

A COLLECTION OF SOME OF THIS YEAR'S HOTTEST NEW STUDIOS

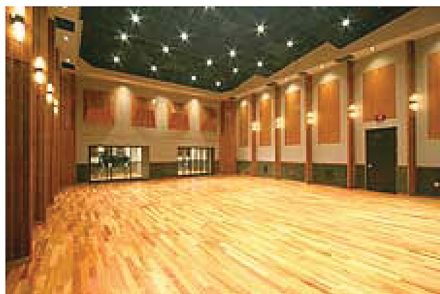

Photo: Jay Kaufman

***Mix* received photos of more than 40 great, new studio designs this year, but we've only got room to print a dozen here.**

### Glendale, Calif.

Just opened last month, The Bridge is a ground-up 6,000-square-foot film and TV scoring facility with room for up to 75 musicians in a 36x48x22-foot live room. The 800-square-foot control room offers a Neve VSP 96-input console, Pro Tools HD7 and HD3, ATC LCR monitors and a QSC 8-speaker surround array. Designed by [Jay Kaufman & Associates](#) (Sherman Oaks, Calif.), the facility features what Kaufman calls a "refinement of classic acoustical elements" and has a 0.9-second RT60.
